

HAMILTON COUNTY GENERAL GOVERNMENT

EMPLOYEE ASSISTANCE PROGRAM

When employees and their families have serious personal problems that affect their personal lives or job performance, they may need professional counseling. The Employee Assistance Program (EAP) can provide confidential, professional assessment and referral to qualified counselors who may be able to help. Employees may use this program to assist with the following problems:

- Coping problems
- Alcohol and Drug Abuse
- Emotional problems
- Financial problems
- Legal problems
- Marriage and family problems
- Workplace problems

Hamilton County Government provides you with four visits to an EAP Counselor at no cost to you. A trained counselor will help you identify the problem and develop a plan of action which may involve further referrals.
